

THE SUN MAY SHINE AGAIN ON CITRUS JUICE IMPACTED BY GREENING DISEASE

All-natural Palm Fruit Extract improves the taste, plus delivers impressive wellness benefits.

Recapture the refreshing taste

Palm Fruit Extract improves the flavor of HLB-impacted citrus juice. There's a noticeable improvement in mouthfeel and a smoother flavor.

Acidity

Fullness

Bitter notes

Boost the wellness benefits

Palm Fruit Extract adds health-boosting antioxidants and polyphenols to already good-for-you orange and grapefruit juice.

Focus & concentration

Healthy mood

Clearer thinking

TWO FRUITS ARE BETTER THAN ONE: AN UPCYCLING SOLUTION

Formulating water-soluble Palm Fruit Extract with HLB-impacted juices is simple. Prototype juices containing just 0.1 – 0.2% Palm Fruit Extract have shown reduced bitter taste and astringent off-notes. Also, Palm Fruit Extract promotes mind and body wellness that you'll feel and taste.

It's non-GMO, clinically tested and sustainably produced from a traceable North American supply chain.

Non-GMO

Clinically tested

Rainforest Alliance

FSC

Palm Fruit Extract can help you capture the growing consumer market for clean label and functional beverages while upcycling a problem to a solution.

Upcycle your juice with tropical palm fruit

See for yourself how Palm Fruit Extract enhances the flavor of HLB-impacted juice as well as invigorates mind and body. Contact us today to start developing your customized formulas.
